REPORT

After nine months this report is to be completed in preparation for the first evaluation meeting, which will be held at twelve months. The PhD candidate must submit this report by email to all of his/her supervisors, to Tanja Kassenaar and to Sonja Smets.

PhD candidates are advised to discuss the specific format of this scientific report in advance with their supervisors. It can, for example, take the form of a ten-page pilot study or a draft of a research paper. The report should end with a short PhD plan (drafted by the candidate) for the research tasks that are to be conducted in the next years.

This report should not contain any material that you have co-authored with others.
